INTRODUCING

# Aeralon *Fabric*

"The future of upholstery is here."

"Performance,  
woven by  
nature."

Aeralon began with a question: **what if performance didn't require chemistry?** The answer is woven into every fiber — an organic textile engineered to resist what other fabrics absorb. No coatings. No compromises. Just a surface that wears in, never out.

## i. WHAT AERALON ERASES

**COFFEE & JUICE**

*Water alone*

**OIL & GREASE**

*Mild detergent*

**KETCHUP**

*Water alone*

**RED WINE**

*Mild detergent*

## ii. NATURAL BY DESIGN

### 01 ORGANIC FIBERS

Natural materials engineered for performance without synthetic additions.

### 02 ZERO CHEMICALS

No coatings, no sprays — protection is woven in, not applied.

### 03 BUILT TO LAST

100K rubs, 15+ washes, zero degradation — engineered for the long arc.
